

ATWELL COLLEGE CANTEEN SUMMER MENU 2022

Healthy Food & Drink Choices

This policy was introduced in 2006 by the West Australian Government. This is the 'Traffic Light System' as foods are Categorized as Green, Amber and Red!

● **GREEN** - This colour indicates it is low in fat, sugar or salt and can be eaten or consumed regularly. It is the healthiest of choices.

● **AMBER** - Indicates that content of fat, sugar or salt is medium in these foods and can be eaten occasionally though not on a regular basis.

● **RED** - Indicates that the food is high in fat, sugar or salt. It is best to avoid these kinds of food and can be eaten only rarely and will not be served in this canteen!
